It is simply iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter nauseating tonics. Price, see box. We noted, among the various and handsome presents given one of our prominent young men who recently married, a neat little carriage; it was being rolled along behind the wagon which carried the other presents. A visit to our gins will convince the most skeptical that prosperity with a big P. has struck this county: lots of cotton, plenty of hay, hog and hominy, peace and good will to all men; what else is needed? If Pensacola can, by the strictest quarantine, keep yellow jack out of them, it will be star in her crown. We say: by all means keep it out; then we of West Florida will have the Metropolis of the State —PENSACOLA. One of the new enterprises that has recently been started here, is the chicken farm of Mr. J. H. Tarkington. He now has his incubators full of eggs and will soon have his place full of little chicks. If some enterprising man would open a lumber and shingle yard here, he could do a good business. In August we had a mess of roasting ears from L. L. Whidden, from the Chipley Corn, planted in July; six ears of which made us too good meals, and they were raised from three stalks. Now Mr. Whidden comes with the same three stalks from which the corn was pulled, rolled from bottom to top with pea vines, on which are peas enough to feed us one and a half days, and grass cut from around the corn, nine feet long, enough to feed a cow a day. Mr. Whidden says that if his stuff had been cultivated no telling how much it would have made. This shows what can be made on Florida swamp land, with little cultivation. We have the corn stalks, pea vines and grass here to show; come and see.
